TECHNICAL SKILLS

Python, Java, JavaScript, SQL, Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn, PyTorch, Deep Learning, NLP, Computer Vision, Transformers, LLMs, Prompt Engineering, Embeddings, RAG, React.js, HTML, CSS, Tailwind CSS, Node.js, Express.js, FastAPI, REST APIs, MongoDB, Supabase, Git, GitHub, Jupyter Notebook, Streamlit.

EDUCATION

B.Tech. in Computer Science and Engineering, NSHM Knowledge Campus, Durgapur CGPA: 7.28 (up to 6th Sem)

PROJECT EXPERIENCE

SceneSense AI | Semantic Movie Retrieval System *Python, Sentence Transformers, FAISS, Streamlit*
[GitHub](#) | [Live Demo](#)

- Engineered a semantic search engine using Sentence Transformers to generate dense vector embeddings for natural language movie retrieval.
- Implemented FAISS-based vector indexing and cosine similarity search, enabling low-latency, context-aware recommendations beyond keyword matching.
- Developed and deployed an end-to-end Streamlit application integrating embedding generation, inference, and real-time semantic search.

SnapClass | AI-Powered Smart Attendance System *Python, Computer Vision, Streamlit, Supabase*
[GitHub](#) | [Live Demo](#)

- Built an AI-powered attendance system leveraging computer vision, facial recognition, and voice biometrics for automated identity verification.
- Integrated machine learning inference with Supabase for secure user management, attendance logging, and real-time database operations.
- Designed and deployed a Streamlit dashboard for attendance analytics, subject management, and real-time monitoring.

Anonify | Anonymous Social Platform *MERN Stack*
[GitHub](#) | [Live Demo](#)

- Developed a full-stack MERN application with JWT authentication, role-based authorization, and secure anonymous content sharing.
- Designed RESTful APIs, optimized MongoDB schema design, and implemented CRUD operations, input validation, and centralized error handling.
- Deployed the application on Vercel with responsive UI, scalable backend architecture, and efficient client-server communication.

LEADERSHIP & RESPONSIBILITY

Technical Coordinator *College Coding Club*

- Managed and maintained the official coding club website.
- Handled feature updates, bug fixes, and performance improvements.
